Cast: *Ryan Gosling as Neil Armstrong, Corey Stoll as Buzz Aldrin*

## **FIRST MAN**

The riveting story of the 1969 moon landing. Much more focused on the "small step for man" and less on the "giant leap for mankind", this follows Neil Armstrong on his journey to becoming the first man to walk on the moon. The perils and exhilarations of spaceflight are brilliantly conveyed to give you the hair-raising feeling of what it was really like inside Apollo 11.
